are at Your Service

UNLEASH YOUR BUSINESS WITH CONSUMPTION-BASED IT

Consumption-based IT lets you pay only for what you use. You're empowered to only take advantage of the features and options you need. You also have the agility and flexibility to quickly respond to changing business needs.

In fact, **over 90%** of IT software and hardware purchasers already use a pay-as-you-go model.¹

HPE GreenLake and **Logicalis** have combined forces to offer a unique "as-a-service" model customized to your unique and ever-changing needs. HPE GreenLake provides consumption-based IT that is elastic and ready to use when you need it.

Logicalis offers end-to-end global solutions and expert services including HPE solutions across the entire range of servers, storage, software, and networking.

PAY ONLY FOR WHAT YOU NEED*

30%

CAPEX savings by eliminating overprovisioning.²

65%

decrease in time-to-market.³

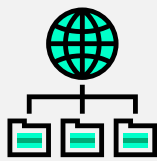

40%

increase in IT team productivity.³

60%

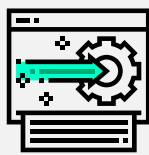

savings on professional services/subcontractor costs.⁴

LOWER YOUR IT COSTS

Scalability

Start with the capacity you need today and grow with business demand.

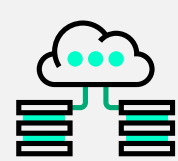

Agility

Boost operational and financial flexibility.

Offload the burden of operating IT.

Control

Gain total control of your dollars and processes.

REFERENCES

HPE GreenLake + Logicalis together provide:

- Faster time to value with solutions that evolve ahead of your needs.
- A flexible pay-per-use model that simplifies and clarifies.
- On-premise control over compliance, performance, and security.
- Simplified IT that frees up resources and adds business value.

Consumption-based IT is the right choice when:

- Large capital outlays no longer fit your business needs.
- You want to operate your IT on-premises, while taking advantage of public cloud cost and greater agility.
- You need to be ready for growth and unpredictable surges in demand.

Contact Logicalis to find out how HPE's proven consumption-based IT solutions help you simplify your IT operations, increase business, agility, reduce costs, and accelerate growth.
